## 章节摘录

Each of us, in our own lives, will have to accept responsibility—for instilling an ethic of achievement in our children, for adapting to a more competitive economy, for strengthening our communities, and sharing some measure of sacrifice. So let us begin. Let us begin this hard work together. Let us transform this nation. Let us be the generation that reshapes our economy to compete in the digital age. Let's set high standards for our schools and give them the resources they need to succeed. Let's recruit a new army of teachers and give them better pay and more support in exchange for more accountability. Let's make college more affordable, and let's invest in scientific research, and let's lay down broadband lines through the heart of inner cities and rural towns all across America. And as our economy changes, let's be the generation that ensures our nation's workers are sharing in our prosperity. Let's protect the hard-earned benefits their companies have promised. Let's make it possible for hardworking Americans to save for retirement. And let's allow our unions and their organizers to lift up this country's middle class again. Let's be the generation that ends poverty in America. Every single person willing to work should be able to get job training that leads to a job, and earn a living wage that can pay the bills, and afford child care so their kids have a safe place to go when they work. Let's do this. Let's be the generation that finally tackles our health care crisis. We can control costs by focusing on prevention, by providing better treatment to the chronically ill, and using technology to cut the bureaucracy. Let's be the generation that says fight here, right now, that we will have universal health care in America by the end of the next President's first term. Let's be the generation that finally frees America from the tyranny of oil. We can harness homegrown, alternative fuels like ethanol and spur the production of more fuel-efficient cars. We can set up a system for capping greenhouse gases. We can turn this crisis of global warming into a moment of opportunity for innovation, and job creation, and an incentive for businesses that will serve as a model for the world. Let's be the generation that makes future generations proud of what we did here. Most of all, let's be the generation that never forgets what happened on that September day and confront the terrorists with everything we've got. Politics doesn't have to divide us on this anymore—we can work together to keep our country safe. I've worked with Republican Senator Dick Lugar to pass a law that will secure and destroy some of the world's deadliest, unguarded weapons.
