## 内容概要

As today's high-tech develops , society changes accordingly. The book is a collection of English papers in social engineering field. The authors are scholars and students from Harbin Institute of Technology , Xi'an Jiaotong University and State University of Management , Moscow. The English papers , which follow four themes of social engineering , focus on the impact of developing high-tech on the social system , as well as the future developing orientation of social system under the influence of high-tech. This book represents the forefront of social engineering and reflects the ideas and processes of study.

#### 作者简介

何明升，哈尔滨工业大学人文学院院长、博士生导师、黑龙江省哲学社会科学学科工作组成员；黑龙江省委、省政府科技经济顾问委员会专家组成员；黑龙江省社会学学会理事；哈尔滨市社会学学会副理事长。

## 书籍目录

High Technology and Society: from Bilateral Construction to System Integration  
 1 Relation Evolution of Technology and Society  
 2 System Integration of High-tech and Society and Its Engineering Implication  
 3 Research on High-tech and Society in the Field of System Integration  
 Strategy Development: Challenge and New Vision  
 Definition and Analysis of Social Engineering Problem  
 1 Social Problem is the Starting Point of Social Engineering Activity  
 2 The Social Engineering Problem is the Problem Brings out Social Problem  
 3 The Thought and Method of Social Engineering Problem  
 4 The Structural Discrimination of Policy Engineering Problem  
 5 The Deep-seated Problems  
 Section 1 The View of the General Characteristics of Social Engineering from "The Roosevelt New Deal"  
 1 Introduction  
 2 The Social Engineering is the Unification of "the Passivity" and "the Initiative"  
 3 The Social Engineering is the Unification of "the Design" and "the Strain"  
 4 The Social Engineering is the Unification of "the Effectiveness Term" and "the Long Term"  
 Thoughts on the Value of Social Engineering  
 1 Analyze Social Engineering Value from the Angle of Social Engineering Ontology  
 2 Social Engineering: Analyze Social Engineering Value from Epistemology Angle  
 3 Analyze Value of Social Engineering from Methodology Angle of Social Engineering  
 4 Social Engineering Relating to the Significant Action of National Economy and People's Livelihood  
 The Relation of Social Engineering and Nature Engineering  
 1 The Fundamental Connotation of Social Engineering  
 2 The Special Relation between Social Engineering and Nature Engineering  
 3 Basic Differences between Social Engineering and Natural Engineering  
 Production and Vicissitude of Social Engineering and Social Structure  
 1 Social Engineering and Social Structure's Production  
 2 Social Engineering and Social Structure's Vicissitude  
 3 Social Engineering and the Construction of Socialism  
 Harmonious Society . . . . . Section 2 Section 3 Section 4 Section 5

## 章节摘录

The DBT first selects a salient topic-one that of social concern , pertinent to upcoming parliamentary deliberations , then chooses a steering committee to oversee the organization of the conference. With the topic in hand and the steering committee , the DBT advertises in local newspapers through out Denmark for participants. Candidates must send a one-page letter describing their backgrounds and their reasons for participating. The board chooses a panel of about 15 people who roughly represent the Danish population. There are two weekend preparatory meetings before the formal conference. At the first preparatory weekend meeting , the public group , with the help of a skilled facilitator , discusses an expert background paper , and at the second preparatory weekend meeting , the public group , again with the help of the skilled facilitator , discusses more background readings provided by the steering committee , propose questions and refine their questions. The following public conference usually lasts for four days. On the first day , the experts discuss the problems proposed by the public group members. On the second day , the public group publicly cross-examines the expert panel. On the third day , the public group prepares its report , summarizing the issues on which it could reach consensus and identifying and remaining points of disagreement. On the final day , the expert group has a brief statement to correct misstatements of the public group's report , but not otherwise to comment on the document's substance. Afterward , the public group directly presents its report at a national press conference in order to encourage further discuss. The efforts made by DBT certainly promote the understanding of the public to scientific and technological issues. The consensus conferences held in 1980s influenced the legislation of Danish parliamentary. At the same time , the manufacturers of technological production also get the report of the consensus conference and benefit from it so that they can modify their production. ....
