<<结合代数表示论基础 (第2卷)>>

内容概要

《数学经典教材 (影印版) - 结合代数表示论基础 (第2卷)》包括Stable tubes、Standard stable tubes、Generalised standard components、Generalised standard stable tubes等内容

<<结合代数表示论基础 (第2卷)>>

书籍目录

Introduction X. Tubes X.1. Stable tubes X.2. Standard stable tubes X.3. Generalised standard components X.4. Generalised standard stable tubes X.5. Exercises. XI. Module categories over concealed algebras of Euclidean type X1.1. The Coxeter matrix and the defect of a hereditary algebra of Euclidean type X1.2. The category of regular modules over a hereditary algebra of Euclidean type X1.3. The category of regular modules over a concealed algebra of Euclidean type X1.4. The category of modules over the Kronecker algebra X1.5. A characterisation of concealed algebras of Euclidean type X1.6. Exercises XII. Regular modules and tubes over concealed algebras of Euclidean type XII.1. Canonical algebras of Euclidean type XII.2. Regular modules and tubes over canonical algebras of Euclidean type XII.3. A separating family of tubes over a concealed algebra of Euclidean type XII.4. A controlled property of the Euler form of a concealed algebra of Euclidean type XII.5. Exercises XIII. Indecomposable modules and tubes over hereditary algebras of Euclidean type XIII.1. Canonically oriented Euclidean quivers, their Coxeter matrices and the defect XIII.2. Tubes and simple regular modules over hereditary algebras of Euclidean type XIII.3. Four subspace problem XIII.4. Exercises XIV. Minimal representation-infinite algebras XIV.1. Critical integral quadratic forms XIV.2. Minimal representation-infinite algebras XIV.3. A criterion for the infinite representation type of algebras XIV.4. A classification of concealed algebras of Euclidean type XIV.5. Exercises Bibliography Index List of symbols
