

图书基本信息

书名：<<DL/T 5238-2010 土坝灌浆技术规范>>

13位ISBN编号：9787512314290

10位ISBN编号：7512314299

出版时间：2011-4

出版时间：中国电力出版社

作者：国家能源局 编

页数：30

字数：26000

内容概要

《DL/T 5238-2010土坝灌浆技术规范(英文版)》内容简介：This Standard is a revision one and made by the requirement of Notice on Printing the Development and Revision Plan of Professional Standards in 2007 (Document 1415, 2007) issued by the National Development and Reform Commission of the People's Republic of China.

Earth dam grouting technology is an innovation for seepage treatment of earth dam and embankment. Grouting Technical Specification for Earth Dam was issued in 1988, and it has played an important role in application and promotion of earth dam grouting technology. Many reservoirs and embankments were reinforced by using the technology. Meanwhile the technology has obtained improvement and development in practice, and the application range and the scale of treated projects have extended. In combination with the current development of earth dam grouting technology, this Standard is prepared through the Supplementary and revision of the former standard.

书籍目录

- Foreword
- 1 Scope
- 2 Normative References
- 3 Terms and Definitions
- 4 General
- 5 Grouting Design
 - 5.1 General
 - 5.2 Defct Investigation
 - 5.3 Hydrofracture Grouting Design
 - 5.4 Filling Grouting Design
 - 5.5 Hydrofracture Grouting Design for Embankment Foundation
- 6 Grouting Construction , '
 - 6.1 Preparation
 - 6.2 Borehole
 - 6.3 Slurry Processing
 - 6.4 Grouting.
 - o
 - 6.5 Grouting Procedure Control
 - 6.6 Grouting Completion and Hole Closure
 - 6.7 Treatment of Special Cases
- 7 Construction Safety and Monitoring
 - 7.1 General
 - 7.2 Monitoring of Dam Deformation
 - 7.3 Seepage Monitoring
 - 7.4 Others
- 8 Quality Check of Grouting
- Appendix A (Informative) Calculation of H-ydrofracture Grouting Pressure
- Appendix B (Informative) Calculation of Dam Stability during Grouting
- Appendix C (Informative) Grouting Record Zable
