内容概要

Experimental Pragmatics Theory and Research (English Edition) : The aim of this book is to provide basic theories and research in experimental pragmatics. Professor Liu illustrates the experimental pragmatics with the theoretical focus , research methods , main research questions , and some experimental results. In a summary of the history and the controversies regarding the core theories in pragmatics , Professor Robert Harnish provides his comments and views on these matters . From a psycholinguistic perspective , Professor Merrill Garrett elucidates the practical issues in psycholinguistic study concerned with experimental pragmatics. Some experimental studies by these authors are also presented. This book is an appropriate reference for researchers , instructors , and students in pragmatics , psycholinguistics , semantics , cognitive linguistics , and related disciplines. Experimental Pragmatics Theory and Research (English Edition) by Liu Si.

书籍目录

Preface
Chapter 1 What Is Experimental Pragmatics
1.1 Introduction
1.2 Present Focused Issues in Pragmatics
1.3 Methodology of Experimental Pragmatics
1.4 Chief Research in Experimental Pragmatics
1.5 Conclusion
Chapter 2 Conventional Implicature, Explicature and Implicature
2.1 Introduction
2.2 General Conventional Implicature (GCI)
2.3 Explicature Theory
2.4 Main Divergences between the Explicature and GCI
2.5 Implicature Theory
2.6 Discussion
Chapter 3 Research I: Processing of Classification and Recognition of Chinese Speech Acts
3.1 Introduction
3.2 The Experimental Problems
3.3 Pilot Experiments
3.4 Experiments
3.5 Conclusion
Chapter 4 Research II: Testing Metaphor Processing Model for Chinese Proverbs
4.1 Background
4.2 Related Research
4.3 Present Study
4.4 Results and Analyses
4.5 Discussion and Conclusion
Chapter 5 Three Approaches to Speech Acts
5.1 The Convention-Rule and Norm Based Tradition
5.2 The Intention-Inference Tradition
Chapter 6 Speaking Nonliterally and Indirectly
6.1 Nonliteral Speech Acts: Background and Current Issues
6.2 Indirect Speech Acts: Background and Current Issues
Chapter 7 Experimental Pragmatics: Indirect and Nonliteral Speech Acts
7.1 The Experimental Pragmatics of Indirect Speech Acts
7.2 The Experimental Pragmatics of Nonliteral Speech Acts
Chapter 8 Conventional Implicature and Conventional Implicature
8.1 Origin of Conventional Implicature
8.2 Challenges to Grice and Conventional Implicature
8.3 Understood Elements of Content
Chapter 9 Cognitive Science Research
9.1 Mind Design: the Computer Analogy
9.2 A Major Theoretical Principle: Modularity of Mind
9.3 A Second Major Issue: the Role of Co-consciousness in Mental Processing
Chapter 10 Processing Resources and Limitations
10.1 Language as a Complex of Mental Processes
10.2 Segmentation Problems
10.3 Word Retrieval and Syntax
10.4 Ambiguity Studies
Chapter 11 Core Problems in Comprehension Studies
11.1 Sentence Level Processes
11.2 Using the Neuroscience Side to Explore the Multi-systems Idea
11.3 Some Experimental Pragmatics
Chapter 12 Research III: The Experimental Pragmatics of Implicature and implicature
12.1 Experimental Pragmatics of Implicature: Categorizing What is Said vs. What is Implicated
12.2 Experimental Pragmatics of Implicature: Processing Models for What is Said vs. What is Implicated
12.3 Experimental Pragmatics of Implicature: A Test Case with implicature
