## 章节摘录

The obesity ( 36 ) \_\_\_\_\_ has spread to poorer nations , where it almost ( 37 ) \_\_\_\_\_ affects wealthy citizens , while the poor in the same nations still remain ( 38 ) \_\_\_\_\_. By contrast , ( 39 ) \_\_\_\_\_ tends to have a greater impact on the poor in developed nations , such as the United States. "There's a lot of discussion on how the problems of obesity and overweight are now spreading to poor and developing countries , " said Subramanian , at the Harvard School of Public Health , who led a recent study. In the study , Subramanian and his colleagues looked for weight ( 40 ) \_\_\_\_\_ in more than half a million women in 54 developing countries between 1994 and 2008. Overall , they found that just about a quarter of the women were overweight , with the rate ( 41 ) \_\_\_\_\_ widely between nations—from three out of every four women in Egypt , to just 6 percent in Ethiopia. More importantly , as levels of income and education rose , so did the weight of ( 42 ) \_\_\_\_\_. Those in the top ( 43 ) \_\_\_\_\_ of wealth had more than twice the risk of being overweight compared to the bottom quarter. ( 44 ) \_\_\_\_\_ " ( 45 )
