<<苏州河>>

内容概要

As an old Chinese saying goes : water nourishes everything-where there is water , here is a world.The Suzhou Creek , an important waterway running through the heart of Shanghai , has been nourishing the people Living along its banks throughout history. Moreover , it also has witnessed and recorded the recessions , Developments and revolutions taking place in the area. This book presents a general view of the history of the Suzhou Creek with an all0round account of the changes and development of the riverbank area-how it had flourished , how it had declined to the point of being abandoned and how it had been transferred and revived. It also offers a lively picture of the current Suzhou Creek , the “ Mother River ” of the Shang-hainese , which has become a rich source of creative inspiration for artists.

苏州河是吴淞江进入上海市区段的俗称。

苏州河是黄浦江主要支流，又名吴淞江，是上海境内仅次于黄浦江的第2大河。

因发源于苏州附近的松陵地区，古名“松江”，又因流域在古代吴国境内，故称之为“吴淞江”。

吴淞江源出太湖瓜泾口，穿过江南运河，流经吴江、苏州、吴县、昆山、嘉定、青浦等县市，在上海市区外白渡桥附近注入黄浦江。

全长125公里，平均河宽约40~50米，流量平均仅10立方米/秒，旱季则接近于零。

低水位时水深2米左右，是上海通往江苏南部主要水上交通线和上海市区重要航道。

苏州河，一条沉淀了这个城市的繁华、往事、传说和所有的垃圾的河。

这本《苏州河(英文版)》(作者娄承浩、薛顺生)是关于介绍苏州河流域、以及上海古建筑的英文专著
