<<中国园林>>

内容概要

中国园林具有独特的风格，在世界造园艺术中独树一帜。它遵循“虽由人作，宛自天开”的造园思想，把自然山水景观融入一园之中，园林中的山水、草木、亭台楼阁、廊桥馆榭，无不经过精心的布局，组合成如诗如画的空间。本书对中国园林类型、造园手法、园林中的建筑和装饰等进行了生动的讲解，结合精美的图片，带领读者走进中国园林，领略中国园林之美。

Chinese gardening presents a unique style, distinguished among the world's gardening art. It adheres to the gardening philosophy that artificial work should resemble the gift of nature, integrating natural landscape into a garden. The hills and rivers, grass and trees, pavilions and bridges in a garden are all painstakingly arranged, constituting a poetic and picturesque space. This book gives a vivid illustration on Chinese garden types, gardening techniques, and the architecture and ornaments in gardens, leading the readers into Chinese gardens to appreciate their beauty with exquisite pictures.

作者简介

吕明伟，2002年北京林业大学园林学院毕业，山东沂水景观设计师，从事景观规划设计及理论研究工作，在《中国园林》、《开发研究》等学术期刊发表学术论文十余篇，发表专业著作六部。

- 游赏建筑
Landscape Constructions127
- 园林建筑装饰
Decorations of the Architectures149

章节摘录

版权页：插图：The lake area in the southeastern part covers an expanse of 496,000 square meters. There are eight lakes of different sizes: the West Lake, the Cheng Lake, the Ruyi Lake, the Upper Lake, the Lower Lake, the Silver Lake, the Mirror Lake and the Half Moon Lake. These lakes as a whole were called Sai Lake. The architectural styles of the lake area are mostly modeled on the famous landscape gardens of southern China. For instance, the Tower of Mist and Rain is a copy of the Tower of Mist and Rain at Nanhu Lake in Jiaxing, Zhejiang Province. The northern part of the Mountain Resort is a plain area. Few buildings can be found here. This area is mainly dominated by grasslands, forests, giving out a strong flavor of areas beyond the Great Wall. The northwestern part is the mountain area which covers two thirds of the total area of the resort. Ranging from south to north are 4 successive valleys: Zhenzi Yu (Hazels Valley) , Lishu Yu (Pear Trees Valley) , Songlin Yu (Pine Trees Valley) and Songyun Xia (Pine Clouds Valley) .
