章节摘录

1 SANTIAGO Chile unveiled an initial, US \$1-10 million reconstruction plan on Friday to put the central region back on its feet after a devastating earthquake and tsunami. 2 The plan focuses on immediate priorities, such as providing shelter to families made homeless by the quake, restoring school attendance and creating jobs in coastal areas that bore the brunt of the catastrophe, government spokesman said. 3 The Planning and Cooperation Ministry will provide 20,000 provisional homes, in addition to 20,000 already delivered by the Chile Helps Chile campaign. “ These are complementary measures and not substitute for the permanent solutions the Housing Ministry is Working on, ” said the Planning Ministry Felipe Kast. 4 The reconstruction plan calls for putting all Chilean children back in school as quickly as possible. “ The funds will be used for minor repairs (to schools) so classes can resume before April 26, and also to set up social infrastructure including temporary colleges, ” said Education Ministry Joaquin Lavin. He also announced a government grant of US \$ 60 a month over six months to some 20,000 university students whose homes were damaged or destroyed by the earthquake.
