书籍目录

CONTENTS

- 1 Waste management and research in Switzerland
Samuel Stucki
- 2 Prevention and control of solid waste pollution in Shanghai
Deng Hualong and Sun Shunlai
3. Waste management systems from concept to implementation
Charles Keller
- 4 Solid waste management for large cities
Chen Shaowei Zhang Fangmei and Zhao Feng
- 5 Waste management in the city of Zurich-a case study
M Lenwnn
- 6 The feasibility study for the collection of municipal solid waste disposal fee
in Shanghai
Shi Qingwen and Yao Ying
- 7 Waste management and infonnation
Lic phil I Anita Barbara Enz
- 8 Comparison of strategies and regulations on hazardous wastes between European
Union and China
Wang Qiang Jiang Huaitang and Shen Qiang
- 9 Sustainable management of municipal solid waste
Hasan Belevi
- 10 The tentative plan of municipal bulky solid waste collection transportation and
treatment in Shanghai
Tang Jiaju, Zhang Minghao and Shi Qingwen
- 11 European-Swiss standard of landfill construction and research
P Amann
- 12 The primary discussions of waste source management
Zhu Hong Tang Jiafu and Zhang Zhiqiang
- 13 Municipal solid waste incineration-flue gas and ash treatment
Aldo Jakob
- 14 Comparison of cleaning process for municipal solid waste incineration flue gas
Jiao Xuejun
- 15 From waste to energy-recycling technology for municipal solid waste for
the production of solid waste fuel and compost
CERM Anlagenbau Ltd
- 16 Indneration of municipal solid waste and hazardous waste
Jorg C. Engweiler
- 17 Advanced technology for the thennal treatment of municipal solid waste
Hans Kunstler
- 18 Study of determination method for per capita output of residential house refuse
in Shanghai
Zhang Lina
- 19 Research projects in recycling
Martin Brunner
- 20 Circulation of leachate in lysimeters

Xu Dimin

21 Compacting technique of refuse on loose foundation in landfill

Lu Zhengnung and Huang Renhua

22 Landfilling technique of refuse with high moisture on the loose foundation

Zhao Aihua and Lu Zhengming

23 Digestion of municipal solid waste after mechanical separation

Arther Wellinger

24 Total waste management and landfilling: optimizing emissions energy utilization and costs

Heinrich Widmer

25 Long-term prediction of leachate concentrations in Shanghai Refuse Landfill

Zhao Youcai Huang Renhua Zhao Aihua and Lu Zhengming
