<<听知认之 四级英语频度听力>>

前言

教育部在2005年颁布的《全国大学英语四、六级考试改革方案》中强调指出：大学英语四、六级考试改革的目标就是要更准确地考核我国在校大学生的英语综合应用能力，尤其是听说能力。现行四、六级考试中听力理解所占的比例由原来的20%提高到：35%，而在即将到来的“机考”时代

。听力的重要性就更加突显了。

本书就是为了适应这个形势而编写的。

常规的四级听力练习枯燥无味，很难让读者有兴趣坚持下去，而本书完全不同于其他四级听力书，具体特点如下： 一、话题编排科学 作者分析了自2006年6月第一次到最新一次四级考试真题的听力材料，其类型主要涉及社会、经济、科技、文化等10个方面。

按照分析结果，将出现频率最高的话题类型放在第一单元，以此降序排列。

本书所选材料的长度、难度力求与真题保持一致，学习者在进行训练时犹如实战，帮助考生有重点、有方向地进行练习。

章节摘录

The White House was the largest house in the country until after the Civil War in 1860s. The White House has 132 rooms, including 16 family and guest rooms, 35 bathrooms and 3 kitchens. There are 6 levels. The first level has many famous rooms. For example, the West Wing of the White House includes the Oval Office. This is where the president works and meets with his advisers. The president receives guests in the Blue Room. And the State Dining Room can hold 140 people for official dinners in honor of foreign leaders. The second and third floors are the family's private areas. When it is cold outside, the president and his family can warm up near one of the White House's 28 fireplaces. And when it is hot outside, they can swim in the outdoor pool. The White House offers lots of things to do for entertainment. The first family can watch a movie in the small theater, play ping-pong in the family game room or bowl in the small bowling alley. The White House has been home to forty-three presidents. America's first president, George Washington supervised the building process which began in 1792. But he never lived there. John and Abigail Adams became the building's first family in 1800. Since then, the White House has experienced many changes.
