章节摘录

A: You had better do that. There are more tips. Do you want to know ?

A: Yes, please. B: The third one is to keep emotionally and physically healthy. No one can handle stressful situations when exhausted. So please be sure you are getting enough shut-eye each night so you can face the day. Lastly, you should eat a healthy diet, which means three meals a day. A: Okay. I stay up too late everyday chatting on line with friend. Maybe I should begin to go to bed earlier. B: Yes, same with me. Go to bed too late every day. A: But now we should do something together to fight against stress and depression. B: You are right.
