<<城市综合体>>

内容概要

HOPSCA is a totally new city conformation which combines facilities like hotel style management, office, park, shopping, convention and apartment together. As the symbol of a high-level and magnificent lifestyle, HOPSCA is the result of comprehensive developing model which comes from the scientific features and ties of these six city resources ——business, office, commerce, landscape, recreation and entertainment, and living. HOPSCA is becoming an ideal home in which the lifestyle could be freely switched among living, business and recreation and entertainment. Being multi-functional, HOPSCA manages to make the most benefits of the city. Meanwhile, by utilizing advanced hightechnology in planning and design, it is able to be ecological, energy-saving, secure and quick information exchanging.
