内容概要

Task Types分题型训练

?Independent Speaking Task提供独立口语任务应对策略+练习

?Intergrated Speaking Task提供综合口语任务应对策略+练习

Actual Test 提供两套全真口语模拟试题

Workbook 提供词汇训练、语法训练以及记笔记训练

Orientation 介绍托福考试并提供官方评分标准（中文）

Scripts & Answer Keys 提供听力文本及练习答案

作者简介

LinguaForum托福研发小组团队有着丰富的托福考试辅导经验，凭借研发小组对新托福iBT考试的了解和对OG的精准把握，《新托福官方指南考点详解》基础篇与冲刺篇8本图书自出版以来备受世界范围内的托福考生欢迎。

书籍目录

P A R T A Independent Tasks 独立口语任务

Task 1. Personal Preference 表达个人喜好 18

Task 2. Paired Choice 表达选择 32

P A R T B Integrated Tasks 综合口语任务

Task 3. Fit & Explain 信息定位并解释说明理由 60

Task 4. General / Specific 一般信息/ 具体信息 74

Task 5. Problem / Solution 问题/ 解决方法 88

Task 6. Summary 总结 102

P A R T C Actual Test 全真模拟试题

Actual Test 1 全真模拟试题 1 119

Actual Test 2 全真模拟试题 2 127

Workbook 练习册

1. Independent Task Skills 独立口语任务 137

2. Integrated Task Skills 综合口语任务 163

3. Pronunciation 语音训练 189

4. Grammar 语法训练 197

Orientation 新托福考试简介 219

新托福iBT考试简介 220

新托福iBT成绩对照表 224

Scripts & Answer Key 听力文本及练习答案

章节摘录

Lets say you have a driver who complains of not being able to see road signs 5-10 meters away , but can clearly see what is immediately ahead of them. Ten to one , they suffer from myopia , a common refractive disorder that you all probably know as near-sightedness. With myopia , far-away images tend to be blurry and out of focus. Headaches and eye strain caused by squinting are common discomforts for those with this disorder. Lets take another hypothetical driver ... and this driver has the opposite problem. He can see the road ahead of him clearly , but he has to squint to see the speedometer that's right in front of his face. In this case our driver suffers from hyperopia , or far-sightedness. Uh , these symptoms are pretty similar to those of myopia , headaches , eye strain ... Uh , but this time , these discomforts are caused by squinting to see nearby objects , rather than ones far away. So , you see , class , having good eyesight is essential to being able to function properly in the everyday world. Without perfect or good eyesight , we won't be able to clearly see objects within or beyond our peripheral vision. However , corrective surgery and prescription eyewear have become available to people suffering from such conditions. Sample Response I According to the reading , the most common condition among various vision problems is refractive disorders which occur when the shape of the eye is not a perfect sphere and can't bend light properly. The professor discusses drivers who suffer from myopia and drivers who suffer from hyperopia to illustrate refractive disorders. The professor says that the drivers who suffer from myopia , also known as near-sightedness experience headaches and eye strain when looking at far-away images. Also , the drivers who suffer from hyperopia , also known as far-sightedness , experience similar discomforts when looking at nearby objects. The professor emphasizes the importance of having good eyesight. However , she also mentioned that these refractive disorders can be treated through corrective surgery and prescription eyewear.
