<<狄德罗政治著作选>>

内容概要

Denis Diderot(1713-84) was one of the most significant figures of the French Enlightenment. His political writings cover the period from the first volume of the *Encyclopedie* (1751), of which he was principal editor, to the third edition of Raynal's *Histoire des Deux Indes* (1780), one of the most widely read books of the pre-revolutionary period. This volume contains the most important of Diderot's articles for the *Encyclopedie*, a substantial number of his contributions to the *Histoire* and the complete texts of his *Supplement au Voyage de Bougainville*, one of his most visionary works, and his *Observations sur le Nakaz*, a precise and detailed political work translated here in English for the first time. The editor's introduction sets these works in their context and shows the underlying coherence of Diderot's thought. A chronology of events and a list of further reading are included as aids to the reader.
