章节摘录

If it's important for students to wear uniforms, should it be important for teachers to wear uniforms, either ? The answer is "yes". Here are three reasons why they should: First, uniforms help create team spirit. Teachers in school are members of the team and wearing uniforms could help them become more responsible. It would show that they are proud of the school and proud to work there. Second, uniforms should help the teachers gain more respect from their students. In the army, for example, an officer's uniform is very important to show the authority over other soldiers. A teacher in a uniform would get more respect from the students and they will listen to him or her more carefully.
