

## <<基础生物学>>

### 图书基本信息

书名：<<基础生物学>>

13位ISBN编号：9787806139776

10位ISBN编号：780613977X

出版时间：1999-12

出版时间：上海远东出版社

作者：彭敬慈，张丽雯 编

页数：87

字数：139000

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## <<基础生物学>>

### 书籍目录

Chapter 10 Respiration: Releasing Energy from Food Practical 10.1 To find out if carbon dioxide is given out by mouse Practical 10.2 To find out if carbon dioxide is given out by germinating seeds Practical 10.3 To find out if a living mouse produces heat using a differential air thermometer Practical 10.4 To find out if germinating seeds produce heat using thermos flasks Practical 10.5 To show anaerobic respiration in germinating seeds Practical 10.6 To show the fermentation of glucose by yeast Chapter 11 Gaseous Exchange in Humans and Plants Practical 11.1 Examination of a pig's lungs Practical 11.2 To find out the differences in composition between inhaled and exhaled air Practical 11.3 Comparison of the rate of breathing before and after exercise Practical 11.4 To demonstrate the presence of tar in cigarette smoke Practical 11.5 The effect of light intensity on carbon dioxide exchange in plants Chapter 12 Water and Organisms Practical 12.1 Investigation of the effect of different concentrations of saline on red blood cells of a small mammal Practical 12.2 Investigation of the effect of sucrose solution and water on plant cells Practical 12.3 Investigation of the effect of sucrose solution and water in plant tissues Practical 12.4 Experiment to find out if water is lost during transpiration Practical 12.5 To study the effects of some physical factors on the rate of transpiration Practical 12.6 To compare the rates of water loss on the two sides of a leaf Practical 12.7 Observation of the release of air bubbles from leaves in hot water Chapter 13 Transport in Organisms Practical 13.1 Detection of the presence of glucose in blood plasma Practical 13.2 Investigation of the effect of oxygen and carbon dioxide on citrated blood of a chicken Practical 13.3 Microscopic examination of transverse sections of an artery and a vein Practical 13.4 Microscopic examination of the capillary flow in a fish's tail fin Practical 13.5 Examination of a mammalian heart Practical 13.6 Identifying the major arteries in a mammal Practical 13.7 To investigate the tissues for water transport in herbaceous plant Chapter 14 Support and Movement... Chapter 15 Detection of Environmental Conditions in Mammals Hints for Studying and on Assessment (II)
