

<<经济学理论与 应用>>

图书基本信息

书名：<<经济学理论与 应用>>

13位ISBN编号：9787810444002

10位ISBN编号：781044400X

出版时间：1998-03

出版时间：东北财经大学出版社

作者：霍尔(美)

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## <<经济学理论与应用>>

### 内容概要

#### 内容提要

本书是美国斯坦福等著名大学的经济学标准教材，经过多届学生使用而日臻完美。

它的独特之处在于：明确阐述了

8个最基本的经济学原理，辨析了一些似是而非的问题，指出了最容易犯错误的“危险出线”，提供了浅显易懂的数学附录。

## <<经济学理论与应用>>

### 作者简介

#### 作者简介

罗伯特.E.霍尔是世界最著名的经济学家之一，胡佛研究所主任，斯坦福大学经济学教授。

他是美国经济研究署

“经济波动”研究室主任及“商业周期”委员会主席，经常向美国财政部和联邦储备委员会提出经济政策建议。

他在斯

坦福大学研究通货膨胀、失业、税收、货币政策和高技术经济学。

他从麻省理工学院获得博士学位，曾在麻省理工学院和加利福尼亚大学任教。

马克.利伯曼是瓦赛学院经济学副教授，普林斯顿大学客座教授，他在普林斯顿大学获得博士学位。

他的经济学原

理课在瓦赛、哈佛、斯坦福、夏威夷等大学很受欢迎。

他是

美国银行和教育考试中心的顾问。

<<经济学理论与应用>>

书籍目录

BRIEF CONTENTS

PART I PRELIMINARIES

1 What Is Economics?

2 Scarcity, Choice, and Economic Systems

3 Supply and Demand

PART II MICROECONOMICS: FUNDAMENTAL CONCEPTS

4 Elasticity: Concept and Use

5 Consumer Choice

6 Production and Cost

7 How Firms Make Decisions: Profit Maximization

PART III PRODUCT MARKETS

8 Pure Competition

9 Monopoly

10 Monopolistic Competition and Oligopoly

PART IV INPUT MARKETS

11 The Labor Market

12 Income Inequality

13 Markets for Capital and Natural Resources

PART V EFFICIENCY AND THE ROLE OF GOVERNMENT

14 Economic Efficiency and the Competitive Ideal

15 Government's Role in Economic Efficiency

PART VI MACROECONOMICS:

BASIC CONCEPTS

16 What Macroeconomics Tries to Explain

17 Production, Income, and Employment

18 The Monetary System, Prices, and Inflation

PART VII LONG-RUN MACROECONOMICS

19 The Classical Long-Run Model

20 Economic Growth and Rising Living Standards

PART VIII SHORT-RUN MACROECONOMICS

21 Booms and Recessions

22 The Short-Run Keynesian Model

PART IX MONEY, PRICES, AND FLUCTUATIONS

23 The Banking System and the Money Supply

24 The Money Market and the Interest Rate

25 Aggregate Demand and Aggregate Supply

PART X MACROECONOMIC POLICY

26 Inflation and Monetary Policy

27 Fiscal Policy: Taxes, Spending and the Budget Deficit

PART XI THE INTERNATIONAL ECONOMY

28 Comparative Advantage and the Gains from Trade

29 Exchange Rates and Open-Economy Macroeconomics

Mathematical Appendix

<<经济学理论与应用>>

Glossary

Index

CONTENTS

PART

PRELIMINARIES

1 WHAT IS ECONOMICS? I

Myths about Economics

Economics, Scarcity, and Choice

Scarcity and the Individual Scarcity and Society 3

Scarcity and Economics

The World of Economics

Microeconomics and Macroeconomics Positive and

Normative Economics Fields of Economics 6

Why Study Economics?

To Understand the World Better To Gain Self-

Confidence To Achieve Social Change To Help

Prepare for Other Careers To Become an Economist 9

The Methods of Economics

The Art of Building Economic Models Assumptions

and Conclusions Two Fundamental Assumptions

A Few Words on Macroeconomics Choosing among

Theories

"How Much Math Do I Need?"

The Basic Principles of Economics

How to Study Economics

2 SCARCITY, CHOICE,

AND ECONOMIC SYSTEMS

The Concept of Opportunity Cost

Opportunity Cost for Individual

and Society

The Principle of Opportunity Cost

Production Possibilities Frontiers The Search for a Free

Lunch

Economic Systems

Specialization and Exchange Resource Allocation

Resource Ownership Types of Economic Systems

Using the Theory: Opportunity Cost and the Internet

3 SUPPLY AND DEMAND

Markets

The Size of the Market

Competition in Market

Opportunity Cost

Demand

Price and Quantity Demanded The Demand Schedule

and the Demand Curve Changes in Demand

Supply

<<经济学理论与应用>>

Price and Quantity Supplied The Supply Schedule and  
the Supply Curve Changes in Supply  
Putting Supply and Demand Together  
What Happens When Things Change?  
The Principle of Markets and Equilibrium  
A Myth about Supply and Demand  
Government Intervention in Markets  
Price Ceilings Price Floors Supply and Demand  
and Normative Economics  
Using the Theory: Anticipating a Price Change  
MICROECONOMICS: FUNDAMENTAL CONCEPTS  
4 ELASTICITY:  
CONCEPT AND USE  
Price Elasticity of Demand  
The Problem with Using Slope The Elasticity Approach  
Calculating Price Elasticity of Demand Categoriz-  
ing Goods by Elasticity Elasticity of Straight-Line  
Demand Curves Elasticity and Total Expenditure 81  
Determinants of Elasticity Using Price Elasticity of  
Demand: The War on Drugs The Basic Principle of  
Policy Tradeoffs  
5 CONSUMER CHOICE  
The Budget Constraint  
Changes in the Budget Line  
Consumer Preferences  
Early Insights Rationality Tastes  
Consumer Decision Making  
What Happens When Things Change?  
Changes in Income 116 Changes in Price  
Consumers in Markets  
From Individual to Market Demand  
Challenges to Consumer Theory  
Using the Theory: Improving Education  
Appendix: Consumer Theory with Indifference Curves  
The Indifference Map The Marginal Rate of  
Substitution Consumer Decision Making  
Indifference Curves and the Individual Demand  
Curve  
6 PRODUCTION AND COST  
Other Demand Elasticities  
Income Elasticity of Demand  
Demand  
Cross-Price Elasticity of  
Price Elasticity of Supply  
Using the Theory: The Problem with Food  
The Nature of the Firm  
Types of Business Firms

<<经济学理论与应用>>

Limits to the Firm

Why Employees? The

Inputs and Outputs

The Short Run and the Long Run

Production in the Short Run

Total, Marginal, and Average Product Marginal

Returns to Labor Graphing Product Curves The

Total-Marginal Relationship The Average-Marginal  
Relationship

Cost in the Short Run

Thinking about Costs Measuring Short-Run

Costs The Relationship between Average and

Marginal Costs Time to Take a Break

Production and Cost in the Long Run

The Relationship between Long-Run and Short-Run

Costs Average Cost and Plant Size Explaining  
the Shape of the LRATC Curve

Using the Theory: Cost Curves and

Economic Reform in Russia

7 HOW FIRMS MAKE DECISIONS:

PROFIT MAXIMIZATION

The Goal of Profit Maximization

Understanding Profit

Two Definitions of Profit

A Myth about Profit

Why Are There Profits?

The Profit-Maximizing Output Level

Constraints on Revenue and Cost Total Revenue

Total Cost The Total Revenue and Total Cost

Approach The Marginal Revenue and Marginal Cost

Approach Profit Maximization Using Graphs

What about Average Costs? The Importance of

Marginal Decision Making: A Broader View Dealing  
with Losses: The Shutdown Rule

The Goal of the Firm Revisited

The Principal-Agent Problem The Principal-Agent

Problem at the Firm The Assumption of Profit

Maximization

Using the Theory: Getting It

Wrong and Getting It Right

Getting It Wrong: The Failure of Franklin National

Bank Getting It Right: The Success of Continental

Airlines

PART III

PRODUCT MARKETS

8 PURE COMPETITION

The Notion of Competition

<<经济学理论与应用>>

What Is Pure Competition?

The Purely Competitive Firm

The Demand Curve Facing a Competitive Firm Cost and Revenue Data for a Competitive Firm Finding the

Profit-Maximizing Output Level Measuring Total

Profit The Firm's Short-Run Supply Curve

Competitive Markets in the Short Run

The (Short-Run) Market Supply Curve Short-Run Equilibrium

Competitive Markets in the Long Run

Profit and Loss and the Long Run Long-Run

Equilibrium Distinguishing Short-Run from Long-Run

Outcomes The Notion of Zero Profit in Pure

Competition Pure Competition and Plant Size

A Summary of the Competitive Firm in the Long Run

What Happens When Things Change?

Constant-Cost Industries Increasing-Cost Industries

Decreasing-Cost Industries Changes in Demand:

A Summary

Using the Theory: Changes in Technology

9 MONOPOLY

What Is a Monopoly?

The Origins of Monopoly

Economies of Scale Control of Scarce Inputs

Government-Enforced Barriers

The Single-Price Monopoly

Price and Output Decisions of a Single-Price Monopoly

Profit and Loss Monopoly in the Short Run

Monopoly in the Long Run 245 Comparing Monopoly to

Pure Competition Why Monopolies Often Earn Zero

Economic Profit

Myths about Monopoly

Price Discrimination

Requirements (or Price Discrimination Effects of Price

Discrimination

The Demise of Monopoly

Using the Theory: Price Discrimination

at Colleges and Universities

10 MONOPOUSTIC

COMPETITION AND

OLIGOPOLY

The Concept of Imperfect Competition

Monopolistic Competition

Monopolistic Competition in the Short Run

Monopolistic Competition in the Long Run Excess

Capacity under Monopolistic Competition Nonprice

Competition

<<经济学理论与应用>>

Oligopoly

Oligopoly in the Real World Why Oligopolies

Exist Oligopoly Behavior Cooperative Behavior

in Oligopoly The Limits to Oligopoly

Using the Theory: Advertising in

Monopolistic Competition and Oligopoly

Advertising and Market Equilibrium under Monopolistic

Competition Advertising and Collusion in

Oligopoly

The Four Market Structures: A Postscript

PARTIV

INPUT MARKETS

11 THE LABOR MARKET

Resource Markets in General

Labor Markets in Particular

Defining a Labor Market Competitive Labor

Markets

Demand for Labor by a Single Firm

The Firm's Employment Decision when Only Labor

Variable 299 The Employment Decision when

Several Inputs Are Variable

The Market Demand for Labor

Shifts in the Market Labor Demand Curve.

Labor Supply

Individual Labor Supply Market Labor Supply Supply

Shifts in the Market Labor Supply Curve Short-Run

versus Long-Run Labor Supply

Labor Market Equilibrium

What Happens When Things Change?

A Change in Labor Demand A Change in Labor

Supply Labor Shortages and Surpluses

Using the Theory: Understanding the Market

for College-Educated Labor

12 INCOME

INEQUALITY

Why Do Wages Differ?

An Imaginary World Compensating Differential.

Barriers to Entry Union Wage Setting

Discrimination and Wages

Employer Prejudice Employee and Customer

Prejudice Statistical Discrimination Dealing

with Discrimination Discrimination and Wage

Differentials

Measuring Income Inequality

The Poverty Rate The Lorenz Curve Problem

with Inequality Measures

Income Inequality, Fairness, and Economic

<<经济学理论与应用>>

Using the Theory: The Minimum Wage

13 MARKETS FOR  
CAPITAL AND NATURAL  
RESOURCES

Flows versus Stocks

Rental Markets and Asset Market.

Rental Markets for Capital and Natural Resources

Demand for a Resource Supply Market

Equilibrium

Asset Markets for Capital and Natural Resources

Comparing Future Dollars with Present Dollars

Capitalizing an Income Stream Purchase Prices of

Natural Resources An Application: Land Price

Differentials

Nonrenewable Resources: Are We Doomed?

A Model of Resource Exhaustion Betting on the

Planet

Interest and the Market for Loanable Funds

Consumers' Time Preference The Time Productivity of

Producers Nominal interest versus Real Interest

A Firm's Selection of Investment Projects The

Loanable Funds Market

Financial Markets in the United States

Bonds Stocks, Diversification, and Systematic

Risk Growth and Value Efficient Market

Using the Theory: A Corporate Buyout

PART V

EFFICIENCY AND THE ROLE OF GOVERNMENT

14 ECONOMIC EFFICIENCY

AND THE COMPETITIVE

IDEAL

The Meaning of Efficiency

Pareto Improvements

Side Payments and Pareto Improvements Potential

Pareto Improvements

The Elements of Efficiency

Productive Efficiency Allocative Efficiency

Economic Efficiency: A Summary

The Inefficiency of Imperfect Competition

Where Do We Go from Here?

Using the Theory: The Collapse of Communism

15 GOVERNMENT'S

ROLE IN ECONOMIC

EFFICIENCY

The Institutional Infrastructure of a Market Economy

The Legal System Regulation Law and

Regulation in Perspective Taxation

<<经济学理论与应用>>

Market Failures

Imperfect Competition

Goods

Externalities

Public

Using the Theory: Case Studies

of Antitrust and Regulation

Breaking Up a Monopoly: Alcoa Regulation and

Deregulation: The Airlines Preserving Competition:

Soft Drinks An Ongoing Challenge: Microsoft

Microsoft

PART VI

MACROECONOMICS: BASIC CONCEPTS

16 WHAT MACROECONOMICS

TRIES TO EXPLAIN

Macroeconomic Concerns

Rapid Economic Growth High Employment

Stable Prices

The Macroeconomic Approach

Aggregation in Macroeconomics

Macroeconomic Controversies

As You Study Macroeconomics

17 PRODUCTION, INCOME,

AND EMPLOYMENT

Production and Gross Domestic Product

GDP: A Definition The Expenditure Approach to

GDP Other Approaches to GDP Measuring

GDP: A Summary Real versus Nominal GDP

The Importance of Real Values: A Basic Principle

How GDP Is Used Problems with GDP

Employment and Unemployment

Types of Unemployment The Costs of Unemployment

How Unemployment is Measured Problems in

Measuring Unemployment

Using the Theory: Society's Choice of GDP

18 THE MONETARY SYSTEM,

PRICES, AND INFLATION

The Monetary System

History of the Dollar Why Paper Currency

Accepted as a Means of Payment

Measuring the Price Level and Inflation

Index Numbers The Consumer Price Index

How the CPI Has Behaved From Price Index to

Inflation Rate How the CPI Is Used Real Using the Theory: Is the CPI Accurate?

Variables and Adjustment for Inflation Inflation and Sources of Bias in the CPI The Consequences of

the Measurement of Real GDP Overstating Inflation Will We Change the CPI?

The Costs of Inflation

<<经济学理论与应用>>

The inflation Myth The Redistributive Cost of  
inflation The Resource Cost of Inflation  
Appendix: Calculating the CPI,  
the GDP Price Index, and Real GDP  
Calculating the Consumer Price Index Calculating the  
GDP Price Index Calculating Real GDP  
PART VII  
LONG-RUN MACROECONOMICS  
19 THE CLASSICAL  
LONG-RUN MODEL  
Macroeconomic Models: Classical versus Keynesian  
Assumptions of the Classical View  
How Much Output Will We Produce?  
The Labor Market Determining the Economy's  
Output  
The Role of Spending  
Total Spending in a Very Simple Economy Total  
Spending in a More Realistic Economy Leakages and  
Injections The Loanable Funds Market The  
Supply of Funds Curve The Demand for Funds  
Curve Equilibrium in the Loanable Funds Market  
The Loanable Funds Market and Say's Law ,  
Money and Prices in the Classical Model  
The Demand for Money Monetary Equilibrium  
The Classical Model: A Summary  
Using the Theory: Fiscal and Monetary  
Policy in the Classical Model  
An Increase in Government Purchases An Increase in  
the Money Supply  
20 ECONOMIC GROWTH  
AND RISING LIVING  
STANDARDS  
The Importance of Growth  
What Makes Economies Grow  
Growth in Employment Growth of the Capital  
Stock Investment and the Capital Stock  
Human Capital and Economic Growth Technological  
Change  
Economic Growth in the United States  
The Cost of Economic Growth  
Budgetary Costs Consumption Costs  
Opportunity Costs of Workers' Time Sacrifice of  
Other Social Goals  
Using the Theory: Economic Growth  
in the Less Developed Countries  
c  
PART VIII

<<经济学理论与应用>>

SHORT-RUN MACROECONOMICS

21 BOOMS AND RECESIONS

Can the Classical Model Explain

Booms and Recessions?

Shifts in Labor Demand Shifts in Labor Supply

Verdict: The Classical Model Cannot Explain Booms and Recessions

Booms and Recessions: A More Realistic View

Opportunity Cost and Labor Supply Firms'

Benefits from Hiring: The Labor Demand Curve

The Meaning of Labor Market Equilibrium The Investment Spending

Labor Market in a Recession The Labor Market in a

Boom Government Purchases

What Triggers Booms and Recessions?

A Very Simple Economy The Real-World

Economy Shocks That Push the Economy Away from

Equilibrium Job Destruction and Job Creation

The Economics of Slow Adjustment

Adjustment in a Boom Adjustment in a Recession

The Speed of Adjustment

Where Do We Go from Here?

22 THE SHORT-RUN,

KEYNESIAN MODEL

Consumption Spending

The Relationship between Consumption and Disposable

Income The Relationship between Consumption

and Income Shifts in the Consumption-Income

Line

Income and Aggregate Expenditure

Finding Equilibrium GDP

Inventories and Equilibrium GDP Finding

Equilibrium GDP with a Graph Equilibrium GDP

and Employment

What Happens When Things Change?

A Change in Investment Spending The Expenditure

Multiplier The Multiplier in Reverse Other

Spending Shocks A Graphical View of the Multiplier

An Important Proviso about the Multiplier

Comparing Models; Classical and Keynesian

The Role of Saving The Effect of Fiscal Policy

Using the Theory: The Recession of 1990-1991

Appendix I: Finding Equilibrium GDP Algebraically

Appendix 2: The Special Case of the Tax Multiplier

PARTIX

MONEY, PRICES, AND FLUCTUATIONS

23 THE BANKING SYSTEM

<<经济学理论与应用>>

AND THE MONEY SUPPLY

What Is Counted as Money

Measuring the Money Stock

Assets and Their Liquidity

The Banking System

Financial Intermediaries

A Bank's Balance Sheet

M1 and M2

Commercial Banks

The Federal Reserve System

The Structure of the Fed The Federal Open Market

Committee The Functions of the Federal Reserve

The Fed and the Money Supply

How the Fed Increases the Money Supply ' The

Demand Deposit Multiplier The Fed's Effect on the

Banking System as a Whole How the Fed Decreases

the Money Supply Some Important Provisos about the

Demand Deposit Multiplier 650 Other Tools fo

Controlling the Money Supply 651

Using the Theory: Bank Failures and Banking Panics

24 THE MONEY MARKET AND

THE INTEREST RATE

The Demand for Money

An Individual's Demand for Money The Economy-

Wide Demand for Money

The Supply of Money

Equilibrium in the Money Market

How the Money Market Reaches Equilibrium

What Happens When Things Change?

How the Fed Changes the Interest Rate The Fed in

Action How Do Interest Rate Changes Affect the

Economy? Fiscal Policy (and Other Spending

Changes) Revisited

Curve

Shifts in the Money Demand

Are There Two Theories of the Interest Rate?

Using the Theory: Active versus Passive Policy

The Fed's Response to Spending Shocks The Fed'

Response to Changes in Money Demand

25 AGGREGATE DEMAND AND

AGGREGATE SUPPLY

The Aggregate Demand Curve

Understanding the AD Curve Movement along the

AD Curve Shifts of the AD Curve

The Aggregate Supply Curve

Prices and Costs in the Short Run Deriving the

Aggregate Supply Curve Movements along the AS

<<经济学理论与应用>>

Curve Shifts of the AS Curve

AD and AS Together: Short-Run Equilibrium

What Happens When Things Change?

Demand Shocks in the Short Run Demand Shocks:

Adjusting to the Long Run The Long-Run Aggregate

Supply Curve Supply Shocks

Some Important Provisos about the AS Curve

Using the Theory: The Recession

and Recovery of 1990-92

PART X

MACROECONOMIC POLICY

26 INFLATION AND

MONETARY POLICY

The Objectives of Monetary Policy

Low, Stable Inflation Full Employment

The Fed's Performance

Federal Reserve Policy: Theory and Practice

Responding to Shifts in the Money Demand Curve

The Fed's Response to Spending Shocks Responding

to Supply Shocks

Expectations and Ongoing Inflation

How an Ongoing Inflation Arises Ongoing Inflation

and Monetary Policy The Phillips Curve

Why the Fed Allows Ongoing Inflation

Using the Theory: Conducting Monetary

Policy in the Real World

Information about the Money Demand Curve

Information about the Sensitivity of Spending to the Interest

Rate Uncertain and Changing Time Lags The

Natural Rate of Unemployment

27 FISCAL POLICY: TAXES,

SPENDING, AND THE

BUDGET DEFICIT

Thinking about Spending, Taxes and the Deficit

Government Spending, Taxes, and the

Budget Deficit: Some Background

Government Spending Federal Tax Revenues

The Federal Deficit and the National Debt

A Myth about Financing the Budget Deficit

The Effects of Fiscal Changes in the Short Run

How Booms and Recessions Affect Spending, Taxes,

and the Budget Deficit Countercyclical Fiscal

Policy?

The Effect of Fiscal Changes in the Long Run

A Contrary View: Ricardian Equivalence

Using the Theory: Are We

Headed for a Debt Disaster?

<<经济学理论与应用>>

PART XI

THE INTERNATIONAL ECONOMY

28 COMPARATIVE

ADVANTAGE AND THE

GAINS FROM TRADE

The Logic of Free Trade

The Theory of Comparative Advantage

Opportunity Cost and Comparative Advantage

Specialization and World Production Gains from

International Trade The Terms of Trade

Comparative Advantage: A Graphical Illustration

Complete Specialization Consumption beyond the

Frontier

Turning Potential Gains into Actual Gain

Some Important Provisions

The Sources of Comparative Advantage

Why Some People Object to Free Trade

The Impact of Trade in the Exporting Country The

Impact of Trade in the Importing Country Attitude

toward Free Trade: A Summary

How Free Trade Is Restricted

Tariffs Quotas Protectionism

Myths about Free Trade

Sophisticated Argument for Protection

Using the Theory: Trade

Restrictions in the United States

29 EXCHANGE RATES

AND OPEN-ECONOMY

MACROECONOMICS

Foreign Exchange Markets and Exchange Rates

Dollars per Pound or Pounds per Dollar?

The Demand for British Pounds

The Demand for Pounds Curve Shifts in the Demand

for Pounds Curve The Demand for Pounds Curve:

A Summary

The Supply of British Pounds

The Supply of Pounds Curve Shifts in the Supply of

Pounds Curve The Supply of Pounds Curve:

A Summary

The Equilibrium Exchange Rate

What about the Market for Dollars?

What Makes Exchange Rates Change?

How Exchange Rates Change over Time Managed

Float Interdependent Markets: The Role of

Arbitrage

Macroeconomics in an Open Economy

Aggregate Expenditure in an Open Economy

<<经济学理论与应用>>

Equilibrium Output in an Open Economy Spending  
Shocks in an Open Economy Exchange Rates and  
Economic Policy  
Using the Theory: Understanding  
the U.S. Trade Deficit  
MATHEMATICAL APPENDIX MA-I
