

<<管理会计:英文>>

图书基本信息

书名：<<管理会计:英文>>

13位ISBN编号：9787810444552

10位ISBN编号：7810444557

出版时间：1998-08

出版时间：东北财经大学出版社

作者：加里森(美)

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## 内容概要

### 内容简介

本书自1976年第一版以来，已发行了几百万册，成为全世界商学学生和教师的首选教材。

本版反映了适时制（JIT）、全面质量管理（TQC）和控制理论等最新议题。

## 作者简介

### 作者简介

雷.H.加里森，美国注册会计师，杨伯翰大学会计学教授。

埃里克.W.诺伦，会计学博士，华盛顿大学、香港科技大学会计学教授。

书籍目录

CONTENTS

I Managerial Accounting and the Business Environment  
The Work of Management and the Need (or Managerial Accounting  
Information  
Planning  
Directing and Motivating  
Controlling  
The End Results of Managers' Activities  
The Planning and Control Cycle  
Comparison of Financial and Managerial Accounting  
Emphasis on the Future  
Relevance and Flexibility of Data  
less Emphasis on Precision  
Segments of an Organization  
Generally Accepted Accounting Principles (GAAP)  
Managerial Accounting-Not Mandatory  
Expanding Role of Managerial Accounting  
The Changing Business Environment  
Just-in-Time (JIT)  
Total Quality Management (TQM)  
Process Reengineering  
Automation  
The Theory of Constraints (TOC)  
International Competition  
Organizational Structure  
Decentralization  
line and Staff Relationships  
The Controller  
Professional Ethics  
Code of Conduct for Management Accountants  
Company Codes of Conduct  
Codes of Conduct on the International Level  
The Certified Management Accountant (CMA)  
Summary  
Key Terms for Review  
Questions  
Exercises  
Problems  
Group Exercises  
2 Cost Terms, Concepts, and Classifications  
General Cost Classifications  
Manufacturing Costs  
Nonmanufacturing Costs  
period Costs versus Product Costs  
period Costs

Product Costs  
Cost Classifications on Financial Statements  
The Balance Sheet  
The Income Statement  
Schedule of Cost of Goods Manufactured  
Product Costs-A Closer look  
Inventoriable Costs  
An Example of Cost Flows  
Cost Classifications for Predicting Cost Behavior  
Variable Cost  
Fixed Cost  
Cost Classifications for Assigning Costs to Cost Objects  
Direct Cost  
Indirect Cost  
Cost Classifications for Decision Making  
Differential Cost and Revenue  
Opportunity Cost  
Sunk Cost  
Summary  
Review Problem 1: Cost Terms  
Review Problem 2: Schedule of Cost of Goods Manufactured and  
Income Statement  
Key Terms for Review  
Appendix 2A: Further Classification of Labor Costs  
Questions  
Exercises  
Problems  
Cases  
Group Exercises  
3 Systems Design: Job-Order Costing  
The Need for Unit Product Cost Data  
Types of Costing Systems  
Process Costing  
Job-Order Costing  
Summary of Costing Methods  
Job-Order Costing-An Overview  
Measuring Direct Materials Cost  
Job Cost Sheet  
Measuring Direct Labor Cost  
Application of Manufacturing Overhead  
Choice of an Allocation Base for Overhead Cost  
Computation of Unit Costs  
Summary of Document Flows  
Job-Order Costing-The Flow of Costs  
The Purchase and issue of Materials  
Labor Cost  
Manufacturing Overhead Costs

<<管理会计:英文>>

The Application of Manufacturing Overhead  
 Nonmanufacturing Costs  
 Cost of Goods Manufactured  
 Cost of Goods Sold  
 Summary of Cost Flows  
 Problems of Overhead Application  
 Underapplied and Overapplied Overhead  
 Disposition of Under- or Overapplied Overhead Balances  
 A General Model of Product Cost Flows  
 Multiple Predetermined Overhead Rates  
 Job-Order Costing in Service Companies  
 Use of Bar Code Technology  
 Summary  
 Review Problem: Job-Order Costing  
 Key Terms for Review  
 Questions  
 Exercises  
 Problems  
 Cases  
 Group Exercises  
 4 Systems Design: Process Costing  
 Comparison of Job-Order and Process Costing  
 Similarities between Job-Order and Process Costing  
 Differences between Job-Order and Process Costing  
 A Perspective of Process Cost Flows  
 Processing Departments  
 The Flow of Materials, Labor, and Overhead Costs  
 Materials, Labor, and Overhead Cost Entries  
 Equivalent Units of Production  
 Weighted-Average Method  
 Production Report-Weighted-Average Method  
 Step 1: Prepare a Quantity Schedule and Compute the Equivalent Units  
 Step 2: Compute the Total and Unit Costs  
 Step 3: Prepare a Cost Reconciliation  
 A Comment about Rounding Errors  
 Operation Costing  
 Summary  
 Review Problem: Process Cost Flows and Reports  
 Key Terms for Review  
 Appendix 4A: FtFO Method  
 Questions  
 Exercises  
 Problems  
 Cases  
 Group Exercises  
 5 Systems Design: Activity-Based Costing and Quality Management

<<管理会计:英文>>

The Concept of Activity-Based Costing  
 Level One: Plantwide Overhead Rate  
 Level Two: Departmental Overhead Rates  
 Level Three: Activity-Based Costing  
 Design of an Activity-Based Costing System  
 Process Value Analysis (PVA)  
 identifying Activity Centers  
 Assigning Costs to Activity Centers  
 Selecting Cost Drivers  
 Graphic Example of Activity-Based Costing  
 Numerical Example of Activity-Based Costing  
 Comtek Sound, Inc.'s Basic Data  
 Direct Labor-Hours as a Base  
 Activities as a Base  
 Benefits and Limitations of Activity-Based Costing  
 Benefits of Activity-Based Costing  
 limitations of Activity-Based Costing  
 Activity-Based Costing and Service Industries  
 International Use of Activity-Based Costing  
 Quality Management  
 Grade  
 Quality of Design  
 Quality of Conformance  
 Quality of Conformance-A Closer Look  
 Prevention Costs  
 Appraisal Costs  
 Internal Failure Costs  
 External Failure Costs  
 Distribution of Quality Costs  
 Quality Cost Reports  
 Quality Cost Reports in Graphic Form  
 Use of Quality Cost Information  
 International Aspects of Quality  
 The ISO 9000 Standards  
 Summary  
 Review Problem: Activity-Based Costing  
 Key Terms for Review  
 Appendix 5A: Cost Flows in an Activity-Based Costing System  
 Questions  
 Exercises  
 Problems  
 Cases  
 Group Exercises  
 6 Cost Behavior: Analysis and Use  
 Types of Cost Behavior Patterns  
 Variable Costs  
 True Variable versus Step-Variable Costs

The Linearity Assumption and the Relevant Range

Fixed Costs

Types of Fixed Costs

The Trend toward Fixed Costs

Fixed Costs and the Relevant Range

Mixed Costs

The Analysis of Mixed Costs

The High-Low Method

The Scattergraph Method

The Least-Squares Regression Method

The Use of Judgment in Cost Analysis

Multiple Regression Analysis

Engineering Approach to Cost Study

The Contribution Format

Why a New income Statement Format?

The Contribution Approach

Summary

Review Problem 1: Cost Behavior

Review Problem 2: High-Low Method

Key Terms for Review

Appendix 6A: Least-Squares Regression Calculations

Questions

Exercises

Problems

Cases

Group Exercises

I THE CENTRAL THEME: Planning and Control

7 Cost-Volume-Profit Relationships

The Basics of Cost-Volume-Profit (CVP) Analysis

Contribution Margin

Contribution Margin Ratio (CM Ratio)

Some Applications of CVP Concepts

Importance of the Contribution Margin

Break-Even Analysis

Break-Even Computations

CVP Relationships in Graphic Form

Target Net Profit Analysis

The Margin of Safety

CVP Considerations in Choosing a Cost Structure

Cost Structure and Profit Stability

Operating Leverage

Automation: Risks and Rewards from a CVP Perspective

Structuring Sales Commissions

The Concept of Sales Mix

The Definition of Sales Mix

Sales Mix and Break-Even Analysis

Sales Mix and per Unit Contribution Margin

Assumptions of CVP Analysis

Summary

Review Problem: CVP Relationships

Key Terms for Review

Questions

Exercises

Problems

Cases

Group Exercises

8 Variable Costing: A Tool for Management

Overview of Absorption and Variable Costing

Absorption Costing

Variable Costing

Unit Cost Computations

The Controversy over Fixed Overhead Cost

Income Comparison of Absorption and Variable Costing

The Definition of an Asset

Extended Comparison of Income Data

Effect of Changes in Production on Net Income

Variable Costing

Absorption Costing

The Impact on the Manager

Other Factors in Choosing a Costing Method

CVP Analysis and Absorption Costing

Pricing Decisions

External Reporting and Income Taxes

Advantages of the Contribution Approach

Variable Costing and the Theory of Constraints

Impact of JIT Inventory Methods

Summary

Review Problem

Key Terms for Review

Questions

Exercises

Problems

Cases

9 Profit Planning

The Basic Framework of Budgeting

Definition of Budgeting

Personal Budgets

Difference between Planning and Control

Advantages of Budgeting

Responsibility Accounting

Choosing a Budget Period

The Self-Imposed Budget

The Matter of Human Relations

## &lt;&lt;管理会计:英文&gt;&gt;

The Budget Committee  
The Master Budget-A Network of Interrelationships  
Sales Forecasting-A Critical Step  
Preparing the Master Budget  
The Sales Budget  
The Production Budget  
Inventory Purchases-Merchandising Firm  
The Direct Materials Budget  
The Direct Labor Budget  
The Manufacturing Overhead Budget  
The Ending Finished Goods Inventory Budget  
The Selling and Administrative Expense Budget  
The Cash Budget  
The Budgeted Income Statement  
The Budgeted Balance Sheet  
Expanding the Budgeted Income Statement  
JIT Purchasing  
Zero-Base Budgeting  
International Aspects of Budgeting  
The Need for Further Budgeting Material  
Review Problem: Budget Schedules  
Key Terms for Review  
Appendix 9A: Economic Order Quantity (EOQ) and the Reorder Point  
Questions  
Exercises  
Problems  
Cases  
Group Exercises  
10 Standard Costs and Operating Performance Measures  
Standard Costs-Management by Exception  
Who Uses Standard Costs?  
Setting Standard Costs  
ideal Versus Practical Standards  
Setting Direct Materials Standards  
Setting Direct Labor Standards  
Setting Variable Manufacturing Overhead Standards  
Are Standards the Same as Budgets?  
Advantages of Standard Costs  
Disadvantages of Standard Costs  
A General Model for Variance Analysis  
Price and Quantity Variances  
Using Standard Costs-Direct Materials Variances  
Materials Price Variance--A Closer Look  
Materials Quantity Variance-A Closer Look  
Using Standard Costs-Direct Labor Variances  
Labor Rate Variance-A Closer Look

labor Efficiency Variance--A Closer Look  
Using Standard Costs-Variable Manufacturing Overhead Variances  
Manufacturing Overhead Variance-A Closer Look  
Structure of Performance Reports  
Variance Analysis and Management by Exception  
Operating Performance Measures  
Standard Costs and the New Competitive Environment  
New Performance Measures  
Quality Control Measures  
Material Control Measures  
Inventory Control Measures  
Machine Performance Measures  
Delivery performance Measures  
Standard Costs and Operating Performance Measures  
International Uses of Standard Costs  
Summary  
Review Problem: Standard Costs  
Key Terms for Review  
Appendix IOA: General Ledger Entries to Record Variances  
Questions  
Exercises  
Problems  
Cases  
Group Exercises  
11 Flexible Budgets and Overhead Analysis  
Flexible Budgets  
Characteristics of a Flexible Budget  
Deficiencies of the Static Budget  
How the Flexible Budget Works  
The Measure of Activity-A Critical Choice  
The Overhead performance Report-A Closer Look  
The Problem of Budget Allowances  
Spending Variance Alone  
Both Spending and Efficiency Variances  
Expanding the Flexible Budget  
Fixed Costs and the Flexible Budget  
Activity-Based Costing and the Flexible Budget  
Overhead Rates and Fixed Overhead Analysis  
Flexible Budgets and Overhead Rates  
Overhead Applications in a Standard Cost System  
The Fixed Overhead Variances  
The Budget Variance--A Closer Look  
The Volume Variance-A Closer Look  
Graphic Analysis of Fixed Overhead Variances  
Cautions in Fixed Overhead Analysis  
Overhead Variances and Under- or Overapplied Overhead Cost  
Presentations of Variances on the Income Statement

Review Problem: Overhead Analysis

Key Terms for Review

Questions

Exercises

Problems

Cases

Group Exercises

12 Segment Reporting, Profitability Analysis, and Decentralization

Hindrances to Proper Cost Assignment

Omission of Costs

Inappropriate Methods for Allocating Costs among Segments

Arbitrarily Dividing Common Costs among Segments

Segment Reporting and Profitability Analysis

Levels- of Segmented Statements

Assigning Costs to Segments

Sales and Contribution Margin

Traceable and Common Fixed Costs

Traceable Costs Can Become Common Costs

Segment Margin

Varying Breakdowns of Total Sales

Customer Profitability Analysis

Responsibility Accounting

Decentralization and Segment Reporting

Cost, Profit, and Investment Centers

Measuring Management Performance

Rate of Return for Measuring Managerial Performance

The Return on Investment (ROI) Formula

Net Operating Income and Operating Assets Defined

Plant and Equipment: Net Book Value or Gross Cost?

Controlling the Rate of Return

Increase Sales

Reduce Expenses

Reduce Operating Assets

The Problem of Allocated Expenses and Assets

Criticisms of ROI

Residual Income-Another Measure of Performance

Motivation and Residual Income

Divisional Comparison and Residual Income

Summary

Review Problem 1: Segmented Statements

Review Problem 2: Return on Investment (ROI) and Residual Income

Key Terms for Review

Appendix I 2A: Transfer Pricing

Review Problem 3: Transfer Pricing

Cases  
Group Exercises  
PART III THE CAPSTONE: Usina Cost Data in Decision Making  
13 Relevant Costs for Decision Making  
Cost Concepts for Decision Making  
Identifying Relevant Costs  
Different Costs for Different Purposes  
Sunk Costs Are Not Relevant Costs  
Book Value of Old Equipment  
Future Costs that Do Not Differ Are Not Relevant Costs  
An Example of Irrelevant Future Costs  
Why Isolate Relevant Costs?  
Adding and Dropping Product Lines and Other Segments  
An Illustration of Cost Analysis  
A Comparative Format  
Beware of Allocated Fixed Costs  
The Make or Buy Decision  
Strategic Aspects of the Make or Buy Decision  
An Example of Make or Buy  
The Matter of Opportunity Cost  
Special Orders  
Utilization of Scarce Resources  
Contribution in Relation to Scarce Resources  
Managing Constraints  
The Problem of Multiple Constraints  
Joint Product Costs and the Contribution Approach  
The Pitfalls of Allocation  
Sell or Process Further Decisions  
Activity-Based Costing and Relevant Costs  
Summary  
Review Problem: Relevant Costs  
Key Terms (or Review  
Questions  
Exercises  
Problems  
Cases  
Group Exercises  
14 Capital Budgeting Decisions  
Capital Budgeting-An investment Concept  
Typical Capital Budgeting Decisions  
Characteristics of Business investments  
Discounted Cash Flows-The Net Present Value Method  
The Net Present Value Method Illustrated  
Emphasis on Cash Flows  
Recovery of the Original Investment  
Simplifying Assumptions  
Choosing a Discount Rate

An Extended Example of the Net Present Value Method  
Discounted Cash Flows-The Internal Rate of Return Method  
The Internal Rate of Return Method Illustrated  
Salvage Value and Other Cash Flows  
The Process of Interpolation  
Using the Internal Rate of Return  
The Cost of Capital as a Screening Tool  
Comparison of the Net Present Value and the Internal Rate of Return Methods  
Expanding the Net Present Value Method  
The Total-Cost Approach  
The Incremental-Cost Approach  
Least-Cost Decisions  
Capital Budgeting and Nonprofit Organizations  
Investments in Automated Equipment  
Benefits from Automation  
Decision Framework for Intangible Benefits  
Other Approaches to Capital Budgeting Decisions  
The Payback Method  
Evaluation of the payback Method  
An Extended Example of Payback  
payback and Uneven Cash Flows  
The Simple Rate of Return Method  
Criticisms of the Simple Rate of Return  
The Choice of an Investment Base  
Postaudit of Investment Projects  
Summary  
Review Problem 1: Basic Present Value Computations  
Review Problem 2: Comparison of Capital Budgeting Methods  
Key Terms for Review  
Appendix 14A: The Concept of Present Value  
Appendix 14B: Inflation and Capital Budgeting  
Appendix 14C: Future Value and Present Value Tables  
Questions  
Exercises  
Problems  
Cases  
Group Exercises  
15 Further Aspects of investment Decisions  
Income Taxes and Capital Budgeting  
The Concept of After-Tax Cost  
The Concept of Depreciation Tax Shield  
Modified Accelerated Cost Recovery System  
The Choice of a Depreciation Method  
Example of Income Taxes and Capital Budgeting  
The Total-Cost Approach and Income Taxes  
Preference Decisions-The Ranking of investment Projects

Internal Rate of Return Method  
Net Present Value Method  
Comparing the Preference Rules  
Summary  
Review Problem: Capital Budgeting and Taxes  
Key Terms for Review  
Questions  
Exercises  
Problems

Part IV SELECTED TOPICS FOR FURTHER STUDY  
16 Service Department Costing: An Activity Approach  
The Need for Cost Allocation  
Guidelines for Cost Allocation  
Selecting Allocation Bases  
Interdepartmental Services  
Allocating Costs by Behavior  
Pitfalls in Allocating Fixed Costs  
Should Actual or Budgeted Costs Be Allocated?  
Effect of Allocations on Operating Departments  
A Summary of Cost Allocation Guidelines  
Implementing the Allocation Guidelines  
Basic Allocation Techniques  
An Extended Example  
No Distinction Made between Fixed and Variable Costs  
Should All Costs Be Allocated?  
Beware of Sales Dollars as an Allocation Base  
Summary  
Review Problem: Direct and Step Methods  
Key Terms for Review  
Questions  
Exercises  
Problems  
Cases  
Group Exercises  
17 "How Well Am I Doing?" Statement of Cash Flows  
The Basic Approach to a Statement of Cash Flows  
Definition of Cash  
Constructing the Statement of Cash Flows Using Changes in  
Noncash Balance Sheet Accounts  
An Example of a Simplified Statement of Cash Flows  
Constructing a Simplified Statement of Cash Flows  
Depreciation, Depletion, and Amortization  
The Need for a More Detailed Statement  
Organization of the Full-Fledged Statement of Cash Flows  
Operating Activities

Investing Activities  
Financing Activities  
Other Issues in Preparing the Statement of Cash Flows  
Cash Flows: Gross or Net?  
Operating Activities: Direct or Indirect Method?  
Direct Exchange Transactions  
An Example of a Full-Fledged Statement of Cash Flows  
Eight Basic Steps to Preparing the Statement of Cash Flows  
Setting Up the Worksheet (Steps 1-4)  
Adjustments to Reflect Gross, Rather Than Net, Amounts (Step 5)  
Classifying Entries as Operating, Investing, or Financing Activities  
(Step 6)  
The Completed Statement of Cash Flows (Steps 7 and 8)  
Interpretation of the Statement of Cash Flows  
Summary  
Review Problem  
Key Terms for Review  
Appendix 17A: The Direct Method of Determining the  
"Net Cash Provided by Operating Activities"  
Questions  
Exercises  
Problems  
Group Exercises  
18 "How Well Am I Doing?" Financial Statement Analysis  
Limitations of Financial Statement Analysis  
Comparison of Financial Data  
The Need to Look beyond Ratios  
Statements in Comparative and Common-Size Form  
Dollar and percentage Changes on Statements  
Common-Size Statements  
Ratio Analysis-The Common Stockholder  
Earnings per Share  
Extraordinary Items and Earnings per Share  
Fully Diluted Earnings per Share  
Price-Earnings Ratio  
Dividend payout and Yield Ratios  
Return on Total Assets  
Return on Common Stockholders' Equity  
Financial Leverage  
Book Value per Share  
Ratio Analysis-The Short-Term Creditor  
Working Capital  
Current Ratio  
Acid-Test (Quick) Ratio  
Accounts Receivable Turnover  
Inventory Turnover  
Ratio Analysis-The Long-Term Creditor

Times Interest Earned Ratio  
Debt-to-Equity Ratio  
Summary of Ratios and Sources of Comparative Ratio Data  
Summary  
Review Problem: Selected Ratios and Financial Leverage  
Key Terms for Review  
Questions  
Exercises  
Problems  
Group Exercises  
Appendix Pricing Products and Services  
Cost-Plus Pricing  
The Absorption Approach  
The Contribution Approach  
Determining the Markup percentage  
Markup on an Absorption Basis  
Markup on a Contribution Basis  
Target Costing  
Reasons for Using Target Costing  
An Example of Target Costing  
Service Companies-Time and Material Pricing  
Time Component  
Material Component  
An Example of Time and Material Pricing  
Key Terms for Review  
Questions  
Exercises  
Problems
