

<<纺纱原理>>

图书基本信息

书名：<<纺纱原理>>

13位ISBN编号：9787811113020

10位ISBN编号：7811113023

出版时间：2008-4

出版时间：东华大学出版社

作者：于修业

页数：280

字数：370000

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<纺纱原理>>

内容概要

英文版纺丝原理是中文版纺丝原理的姐妹书，是为适应高等教育对专业课“双语”教学的需要。

本书的作者在美国北卡罗莱纳州立大学纺织学院学习和工作时，参考了美国、英国、德国、印度等有关书籍，加之自己的教学积累，综合编写而成。

本书可供高等院校纺织工程专业的学生和教师“双语”教学以及纺织科技人员学习和参考用。

<<纺纱原理>>

书籍目录

Chapter 1 Yarn Definition and General Consideration 1.1 Yarn, Thread and Classification 1.1.1 Definition of yarn 1.1.2 Classification of yarns 1.1.3 Yarn description 1.2 Systems of Yarn Manufacturing 1.2.1 Systems of yarn manufacturing 1.2.2 Methods of spinning 1.2.3 Generalization of spinning processes 1.3 Theoretical Aspects of Yarn ManufacturingChapter 2 Fiber Assemblies and their Characteristics 2.1 Fiber Assemblies 2.2 Porosity of Fiber Assembly 2.3 Frictional Property of Fiber AssembliesChapter 3 Fiber Preparation and Selection 3.1 Extraction of Fibrous Materials 3.2 Degumming for Bast Fibers and Silk 3.3 Scouring and Carbonizing for Wool 3.3.1 Scouring 3.3.2 Drying 3.3.3 Carbonizing 3.4 Selection of Fiber MaterialsChapter 4 Fiber Blending 4.1 Purposes of Blending 4.2 Fiber Distribution in Blended Yarns 4.2.1 Random fiber distribution and the occurrence of clusters 4.2.2 Nonuniform fiber distributions in yarn sections 4.3 Tensile Properties of Blended YarnsChapter 5 Opening, Cleaning and Blending 5.1 Methods and Practices of Opening 5.1.1 Opening by picking and pulling, large mass to small tufts 5.1.2 Opening by beaters, roll feed 5.1.3 Opening by beaters, loose stock feed 5.1.4 Opening by carding 5.1.5 Summary of opening principle 5.2 Theories and Practices of Cleaning 5.2.1 Any opening action cleans 5.2.2 Cleaning by centrifugal force 5.2.3 Cleaning by a beater driving fibers over open grid bars or screens 5.2.4 Cleaning by air suction drawing stock over grid surfaces, fingers, or open plates 5.2.5 Cleaning through selective separation by streamline air flotation 5.2.6 Cleaning by air suction against rotating screens 5.3 Methods and Practices of Blending 5.3.1 Hand-stock blending 5.3.2 Bin blending 5.3.3 Lap blending 5.3.4 Blending practices 5.4 Opening and Blending Machines 5.4.1 Blending hopper bale opener 5.4.2 Blending opener with opening unit 5.4.3 Reciprocating bale opener 5.4.4 Multimixer and Aero-mixer 5.5 Opening and Cleaning MachinesChapter 6 CardingChapter 7 Roller DraftingChapter 8 TwistingChapter 9 WindingChapter 10 Yarn Ballon and Tension in Ring SpinningChapter 11 Problems in New Spinning and its DevlopmentsChapter 12 Production and Quality ControlReferences

<<纺纱原理>>

编辑推荐

《纺纱原理(英文版)》可供纺织类本科生、研究生教科书或参考书；亦可供材料类(化学纤维)本科生、研究生参考书；可供纺织类老师、纺织研究单位研究人员参考书；亦可供纺织企业(棉纺织、毛纺织、麻纺织、丝织)化纤企业的工程技术人员参考。

《纺纱原理(英文版)》另有对应英文版，特别适用于高校进行的双语教学，作为纺织类本科生、研究生双语教学教材。
