<<英语词汇学实用教程>>

前言

词汇学是语言学的一个分支，研究语言或一种语言词汇的组成和历史发展。尽管词汇是语言的基础，我们却发觉词汇学在整个语言学体系中似乎缺乏相称的重要地位。更让我们惊诧的是，甚至有人认为词汇学不是一门独立的语言学分支学科。这显然不利于词汇学作为一门学科的发展。

究其原因，与语音、语法相比，词汇似乎因其数量庞大而难以系统研究。然而，大量的已有成果表明，词汇学有其相对明确的研究内容，如词汇结构、构成、意义、变异、变化、来源等；词汇学研究对于认识、使用、学习语言具有重要的意义，对于词典编纂、文化交流等有一定的应用价值。

近二十年来，在当代语用学、认知语言学等学科的积极影响下，在语料库语言学的推动下，词汇学研究迎来了新的发展契机，专著、教材不断涌现。

我们认为，词汇学的理论目标在于深化关于词汇作为语言基础的认识，应用目标在于提高语言学习者和使用者的词汇应用能力。

作为一本为我国英语学习者编写的入门性教材，本书固然重视系统讲解英语词汇学的理论知识，但更强调培养学生的词汇应用能力，即各类交际中使用、理解词汇的能力，因而是一本实用的词汇学教材，或用我国词汇学研究专家汪榕培教授的话说，是一本“狭义的词汇学”教程。

章节摘录

In the natural world, almost all things are continuous rather than discrete. Humans in a natural environment have little difficulty with this reality. If it gets too hot, we turn on the air-conditioner. If it gets too cold, we put a coat on. But there is no precise definition of "too hot" or "too cold"; rather, it depends totally on the individuals' intuitive judgment. Because language is our reflection of the real world and our experience with it, it is inevitably fuzzy.

The role of fuzzy language resides mainly in the following areas: enhancing flexibility, expanding the capacity of language to express the information and broadening the language of the imagination, achieving a special effect, in particular, enhancing the aesthetic value of literature. The following extraction exemplifies how fuzzy words (marked in bold face) can be employed for evaluation: (10) This is an attractive idea while this analysis seemed intuitively appealing, its persuasiveness was weakened by lack of native-speaker discourse to serve as a baseline. Closely related to the concept of fuzziness is that of hedges, which, according to Lakoff (1972:183), are "words and expressions whose job is to make things more or less fuzzy". Hedges, with all their plentiful semantic features and pragmatic functions, serve to make the statement sound more mild, polite, flexible, and effective. We are safe in saying things like "Catherine is probably somewhere in her thirties" because we do not need to give an exact figure, nor do we have to shoulder extra responsibility for the truthfulness of our statements as they allow a range of flexibility. Sometimes, tactful use of hedges becomes a professional requirement.
