

图书基本信息

书名：<<先进纺织材料及加工技术国际学术会议论文集>>

13位ISBN编号：9787894905178

10位ISBN编号：7894905178

出版时间：2008-12

出版时间：浙江大学出版社

作者：中国浙江理工大学先进纺织材料与制备技术教育部重点实验室，日本

页数：582

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## 内容概要

《先进纺织材料及加工技术国际学术会议论文集》主要包括：Poly ( L-lactic acid ) /Chitosan Nano/Micro Fiber-Sheet Promotes Osteoblast Adhesion and Differentiation , The Protein of an Aquatic Textile Fibre ( Trichoptera: Stenopsychidae Marmorata ) , Structure and Thermal Properties of NewStar PMIA Fiber , Research on the Anion Function of Bamboo Charcoal Fiber , Study on Elasticity of Bi-component Filament Fabric等内容。

## 书籍目录

Poly ( L-lactic acid ) /Chitosan Nano/Micro Fiber-Sheet Promotes Osteoblast Adhesion and Differentiation  
The Protein of an Aquatic Textile Fibre ( Trichoptera: Stenopsychidae Marmorata ) Structure and Thermal Properties  
of NewStar PMIA Fiber  
Research on the Anion Function of Bamboo Charcoal Fiber  
Study on Elasticity of Bi-component Filament Fabric  
Melt-spinning the Basalt Fiber by Dielectric Heating  
Effect of Different Degumming Methods of Cotton Bast Fiber on Its Composition and Structure  
Design Creation of Digital Jacquard under Layered-combination Design Mode  
A Geometric Model of Three Dimensional Integrated Hollow Woven Structures  
Effects of Twist on PSA ( Polysulfonamide ) Yarn Properties  
Preparation, Pore Structure and Heat Shrinkage of PTFE Films  
Plit Fibers  
Studying the Properties of Size Films Prepared by Heating Curing  
Light Stability of Silk Fabrics Coated with Chinese Lacquer  
Pressure Plasma Jet  
The Influence of Corona Discharge to Durability of Water-repellence of Polyester Fabric  
Continuous Process for Alkali Treatment of Polyester/Cotton Fabric  
Influence of the Modification of Sisal Fiber on Its Dyeing Performance  
Color Prediction for Blends of Pre-colored Wool  
Effect of Pre-heating on Wool Fabric via Corona Discharge  
Effect of n-amyl Acetate on Dyeing Behaviour of Disperse Dyes in PLA Fibers  
Stripping of Colored Waste Acrylic Fibers  
Textile Wastewater Treatment and Advanced Treatment for Reusing  
Aftertreatment of Silk Yarn Dyed Using Direct and Acid Dyes  
A New Agent Containing POPA-Si ( OCH<sub>3</sub> )<sub>3</sub> for Anti-felting Finishing of Wool with Sol-gel Method  
Accelerating Effect of a Novel Dyeing Accelerator in Low Temperature Dyeing of Polyester  
Effect of Ethanol on the Stability of Pigment Colloidal Dispersion  
Synthesis and Characterization of New Sulfonamide-Containing Anthraquinone Dyes and Their Applications to Polylactic Acid Fabric  
Effects of Ultrasound on Structure and Properties of Polyester Fiber  
Study on the Natural Indigo Dyeing and UV-Protection Performances for Cotton Fabrics  
Effect of Sol Treatment on Colorfastness of the Cotton Fabrics Dyed with Reactive Dyes  
Preparation of Olive-oil/Polyurethane Microcapsules for Skin Care by Interfacial Polymerization  
Study on the Hydrolysis Kinetics of Heterobifunctional Reactive Dyes with HPLC Analysis.....
