内容概要

This book presents a selection of the most interesting proposals in interior design . showing a return to more humanized concepts based on the profound relationship of humankind with its inhabited space. You will find solutions of the most diverse types, an effort to strike a balance between function and aesthetics . between the essential and the non—essential . Included are floor plans . technical specifications . materials used and commentary on each project, all provided by the designing architects themselves . John Pawson . Claesson . Koivisto & Ruben, Norisada Maeda are just some of the architectural luminaries who have contributed to this fine selection .
